	<b>Examiner</b> MARY HOFFMAN	<b>Art Unit</b> 3733	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Allowable Subject Matter***

The indicated allowability of claims 3-5, 10-12, and 18-23 is withdrawn in view of Beale (U.S. Patent No. 6,440,133).

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-25 are rejected under 35 U.S.C. 102(e) as being anticipated by Beale et al. (U.S. 6,440,133) ("Beale").

Beale discloses a system for use in spinal stabilization, comprising an anchoring member comprising a bone-engaging portion, and a head, the head comprising a recess and an external surface; a rod; and a rod persuader comprising a body with a first end and a second end, the second end being releasably attached to the anchoring member, a pusher member at the second end capable of urging the rod into the recess of the anchoring member, a pistol grip attached to the body, and a trigger coupling the pusher member to the body,

Art Unit: 3733

wherein actuation of the trigger translates the pusher member toward the anchoring member (see FIG. 1).

### ***Response to Amendment***

The declaration filed on 04/17/2007 under 37 CFR 1.131 has been considered but is ineffective to overcome the Beale (U.S. 6,440,133) reference. Prior invention may not be established under this section in any country other than the United States, a NAFTA country, or a WTO member country. Applicant has not provided evidence that the work was done in this country, or a NAFTA or WTO country in the declaration.
